SATURDAY, JUNE 19.—P. M.

The stock market today generally was a continuation of yesterday's speculation. There was a further smart advance for the majority of stocks, but like that of yesterday, it was purely local in its character, receiving little assistance from any except the most prominent operators who interest themselves in the higher figures. Yet the business (230,785 shares) was unusually well distributed, there being an abundance of that preponderance of transactions in one or two stocks which frequently is seen in a market of the character of today's. For buoyancy, among the speculative stocks, Michigan Central and St. Paul stocks were especially noticeable, the first-named rising from 88 1/2 to 90, and the last-named advancing from 74 1/2 to 76 1/2, 75 per cent. Western Union also was a particular favorite, rising from 105 to 106, and later to 104 1/2 to 104 3/4 ex dividend of 1 1/2 per cent. Lake Shore, Central and Hudson and Erie also made advances of from 1/2 to 1 1/2 per cent. and reached in final sales. Rock Island and Chicago, Burlington and Quincy also were strong, and recorded advances of 2 and 2 1/2 per cent. respectively. Among the Southwestern stocks, those of Hannibal and St. Joseph were conspicuously among the others only gaining fractions of 1 per cent. Until within the last hour of business the coal stocks were dull and hardly held their own in the way of figures; but the strength of the general market finally developed a demand to cover "shorts," and the coal stocks rapidly advanced nearly 1 per cent.—New-Jersey Central to 67, and Delaware, Lackawanna and Western to 73. The final sales or quotations, however, were not concessions from those figures of 1/2 per cent.

\$100,000 with which to meet the quarterly dividends on the stocks of the Metropolitan and New York Companies and six months' interest on the entire bonded debt of the two companies. It is a movement in on foot to reduce the rentals paid by the Manhattan Company by a reduction of the dividends on the guaranteed stocks. The first statement, in effect, might be a good reason for a decline in the price of the stocks, although, as the current payment would include six months' interest on the quarterly payment, it would not exceed the quarter's proportion of the total rentals. But, upon authority that is unquestionable, we are able to state that the statement is so far from being correct that the Manhattan Company, after the payment of the July interest and dividends, will have remaining a handsome cash balance. The refusal of the immediate officers of the Manhattan Company either to confirm or to deny the statement lends color to the common talk of the street. That the object of the publication was to depress the stock for the purpose of buying it, for the second statement, if true, might be a reason for a decline in the prices of New-York and Metropolitan, if the stocks were selling at prices equal to those of the other 10 per cent. But, in fact, the statement is entirely untrue, and is an excellent reason for an advance in the prices of Manhattan. The less the liabilities of that company are, the more valuable is its own stock. The market generally closed strong.

There was not a transaction in Government bonds on the Boards, and quotations are unchanged from yesterday, being as follows:
